

Case Packer

FEATURES AND BENEFITS

- Small footprint; base machine is less than 3 meters long
- Positive vacuum case opener virtually eliminates case set-up failures
- Ergonomically designed case magazine is easy to load preventing operator injury and strain
- Servo-driven, indexing shuttle case transport system is smooth and positive creating square cases
- cGMP design is suitable for pharmaceutical / health care industry
- Innovative design eases cleaning and lot batch changeover saving time and improving OEE
- Full height guarding doors provide complete, open access to machine providing ease of maintenance, inspection and cleaning
- Tool-less adjustments accommodate fast and accurate changeovers
- A servo-driven, simple, robust design increases component life reducing maintenance and operating cost
- Construction adheres to ANSI/PMMA B1.55.1 standard and cGMP guidelines
- Infeed collator design permits inspection of product as part of your serialization solution

Case Packer

Base Machine

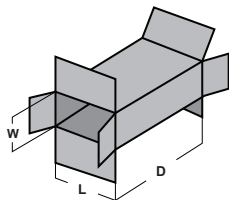

- Case setup utilizes positive adjacent panel vacuum feed opening
- Servo shuttle main drive
- Servo-driven, adjustable stroke pusher
- Case closing with either tape or hot glue
- Ergonomically designed vertical magazine
- Guarding full height polycarbonate interlocked doors
- Size changeover does not require tools
- Frame-welded, painted tubular frame
- Motion control system Allen-Bradley MicroLogix (CompactLogix optional)
- Operator Interface HMI touchscreen
- Power: 230 VAC, 3 Phase, 50-60 Hz
- Air: 15-25 CFM @ 80 PSI typical
- Serialization ready

Case Styles

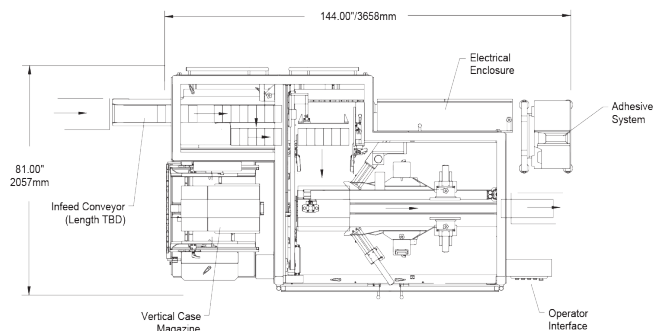

- RCS
- Tape or glue closure

Optional Features

- Automatic product handling/collating
- Vision verification
- Insert feeding
- Open flap detection
- Laser coding or inkjet printing
- Vision verification
- Batch record data collection
- Barcode verification
- Remote diagnostics
- Label printing and application including corner overwrap
- Pharmaceutical validation assistance documents

LENGTH (L)	WIDTH (W)	DEPTH (D)	MAXIMUM SPEED
6 - 20 in 152 - 508 mm	4 - 12 in 102 - 305 mm	4 - 13 in 102 - 330 mm	9 CPM
